Statewide Land Use Report

Part of Washington's effort to support the State's Military Installations

The Governor has tasked Commerce with producing a report to the legislature on civilian land use compatibility and military base missions.

The WA Growth Management Act (GMA) disallows land use development that is incompatible with military installations (RCW 36.70A.0530).

Central question:

- How can Washington State promote compatible civilian land use practices in support of its military bases?

We Need Your Advice

What can we do to promote compatibility?
