

Goal 3: Sustainable Energy and Clean Environment

3.1 Climate Change

Project Title: Reducing Washington State Agency Greenhouse Gas Emissions As Established in RCW 70A.45.050

The purpose of this project is to, in partnership with the State Efficiency and Environmental Performance Office (SEEP), integrate enterprise-level and agency business processes and operations to align with emissions reduction goals (examples: facilities management, planning and oversight, budget, fleet management, leasing). This project is solely focused on reducing state agency GHG emissions.

✓ IN SCOPE

- Demonstrated progress can be made with opportunity for longer term improvement
- Leverages existing agency resources and data
- Reduces risk for clients, agency, etc.
- Demonstrated impact for clients, employees, and/or agencies
- Strategy driven – in line with agency priorities and Governor’s Goal and Focus Areas

✗ OUT OF SCOPE

- Requires funding or legislative action as only solution
- Requires additional staff as only solution
- Requires IT work as only solution
- Shifts work to others as only solution
- Statewide (non-state agency) energy emission levels
- Telework and commute trip reduction

Objectives	Target Dates
Collect 2020 data on all agency electricity and fuel use, and mitigation data	10/15/2021
Build relationships and hear from DEI experts and agencies with experience how best to include the equity lens in GHG emissions work	11/1/2021
Develop recommendations for how to incorporate GHG emission reductions into enterprise and agency decision-making and processes	4/1/2022
Develop communication plan, including needed tools and resources, for sharing GHG emissions reductions recommendations with stakeholders	4/1/2022
Collect 2021 data on all agency electricity and fuel use, and leverage that data to make progress toward the GHG limits	10/1/2022
Solicit feedback on Project Team’s recommendations from existing stakeholder groups for consideration in the SEEP report to the legislature in 2022	12/1/2022
