

# PUBLIC PERFORMANCE REVIEW

#### Goal 4.1 – Reducing Homelessness

April 28, 2021

## Zoom Overview

# Public Performance Review Purpose

The Public Performance Review is our monthly meeting with the Governor, leaders, agency experts, and community members designed to:

- Focus on a cross-agency project tied to the Governor's priorities
- Hear from those impacted by the project those with lived experiences and those who are customers and process partners in the community
- Engage in discussions and problem-solving on these complex topics

# Public Performance Review Project Selection

- 1. Held agency meetings to finalize improvement project recommendations for each Goal area topic.
- 2. Agencies self-selected their participation and designated subject matter experts (SMEs) for each improvement project based on RASCI criteria.
- 3. Facilitated agency meetings to finalize improvement project focus for each Goal area.
- 4. RW and agency SMEs have been actively working to define project scope and develop charters and project plans.

# Project Focus

The purpose of this project is to develop, implement, and pilot an adaptable, dynamic, real-time discharge planner's toolkit.

#### **Project Team**

#### Sponsoring Agencies

Department of Commerce, Department of Corrections, Health Care Authority

#### Support, Consulted, and Informed Agencies

- Department of Children, Youth and Families
- Department of Financial Institutions
- Department of Health
- Department of Social and Health Services

- Office of the Governor
- Office of Financial Management
- Washington State Department of Transportation
- Washington State Patrol

# **Opening Remarks**

## OPPORTUNITY AND PROJECT OVERVIEW

PRESENTED BY (IN ORDER OF PRESENTATION):

- SUE BIRCH, HEALTH CARE AUTHORITY
- MELODIE PAZOLT, HEALTH CARE AUTHORITY
- WANDA JOHNS, HEALTH CARE AUTHORITY
- CRAIG PADGETT, MANAGER OF RESIDENTIAL SERVICES
- SARAH TAYLOR, DISCHARGE PLANNER/CM

## Results WA 4.1 – Reducing Homelessness Discharge Planner's Toolkit

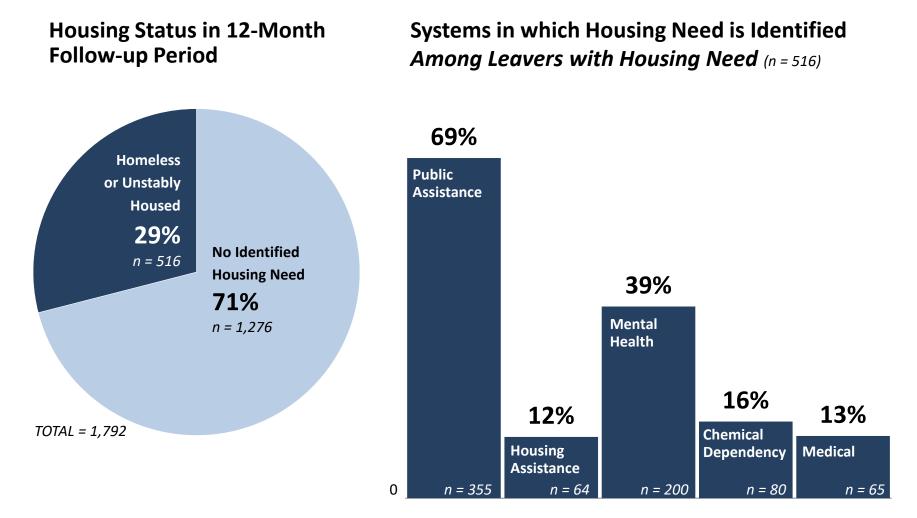

# Wanda's story

#### About 30 percent of state mental hospital residents have a housing need in the year after discharge

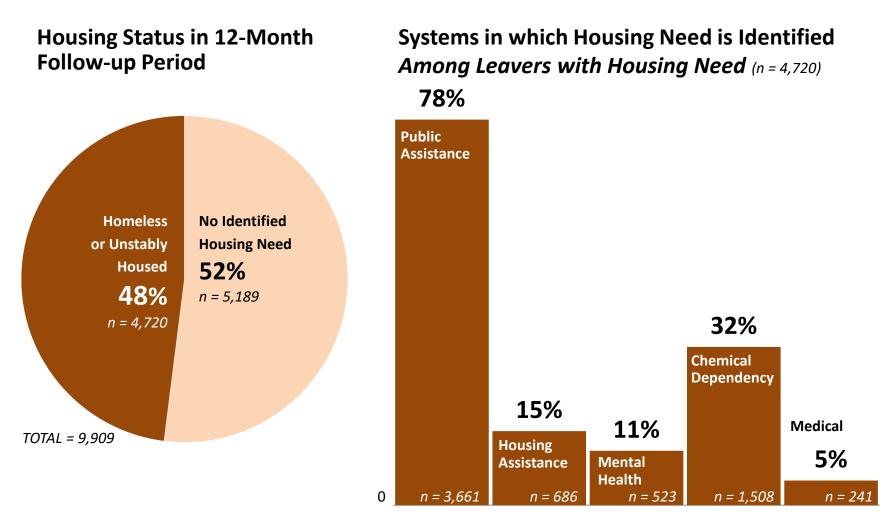

新作

# Governor Q&A

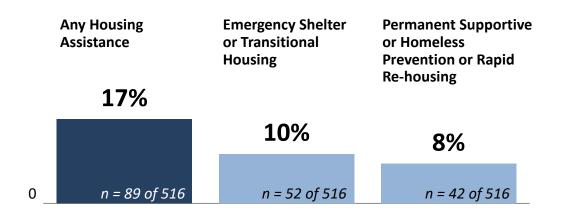

#### Almost half of residential CD treatment individuals have a housing need in the year after discharge

#### Only 17 percent of state mental hospital leavers with a housing need received housing assistance in HMIS

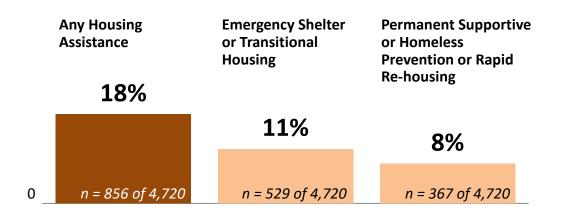

HMIS-Recorded Housing Assistance Penetration Rates Among Leavers with Housing Need (n = 516)

न्निति व्यस्त वि

#### Only 18 percent of residential CD treatment leavers with a housing need received housing assistance in HMIS

HMIS-Recorded Housing Assistance Penetration Rates Among Leavers with Housing Need (n = 4,720)

#### Housing is a Social Determinant of Health

#### Downtown Emergency Service Center (DESC) housing saves taxpayers millions

In the first outcomes paper from DESC's 1811 Eastlake Housing First program for chronically homeless people with severe alcohol problems, University of Washington researchers show that **providing housing and on-site services without requirements of abstinence or treatment is significantly more cost-effective than allowing them to remain homeless**.

Larimer, M.E., et al., (2009). *Health Care and Public Service Use and Costs Before and After Provision of Housing for Chronically Homeless Persons With Severe Alcohol Problems*. <u>The Journal of the American Medical Association</u>, v. 301(2).

#### Affordable housing reduces health care costs

A study conducted by the Center for Outcomes Research and Education (CORE) and sponsored by Enterprise Community Partners found **affordable housing reduced overall health care expenditures by 12% for Medicaid recipients.** 

Wright, B., et al., (2016). <u>Health in Housing: Exploring the Intersection Between</u> <u>Housing & Health Care.</u> Center for Outcomes Research and Education and Enterprise Community Partners, Inc.

#### Doctors could prescribe houses to the homeless under radical Hawaii bill

Newly introduced bill would classify homelessness as a medical condition, as research suggests healthcare spending falls when people have been housed by Liz Barney in Honolulu

#### Housing First reduces use of Emergency Medical Services

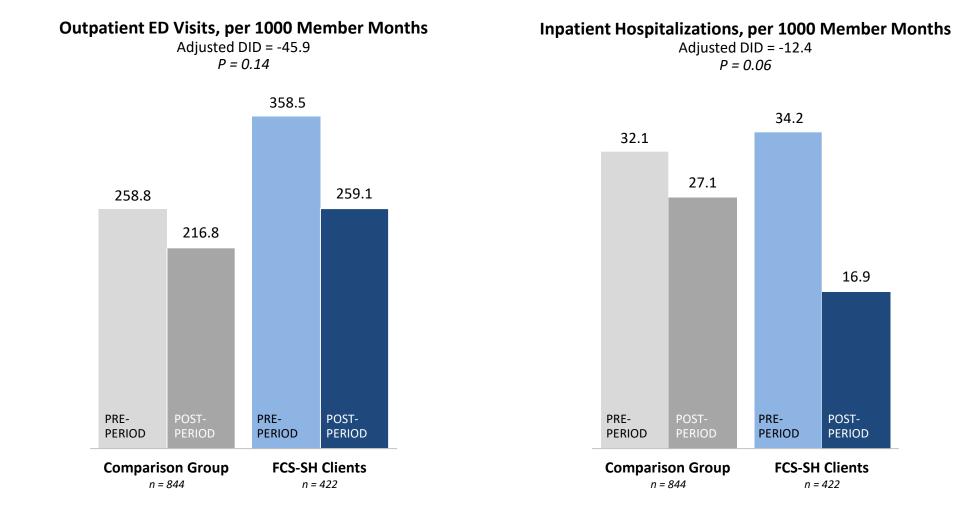

# University of Washington researchers found an average reduction of 54% in the number of contacts with EMS in the two years after obtaining housing.

Mackelprang, J.L., et al., (2014). *Housing First reduces use of Emergency Medical Services*. <u>Prehospital Emergency Care</u>, v. 18(4).

#### HCA Supportive Housing Outcomes: Healthcare Utilization per 1,000 Member Months

Comparison of outcomes 6 months prior to and 6 months following enrollment month • Data is limited to individuals who entered the program as of September 30, 2018

# Governor Q&A

# Challenges from a discharge planner's perspective

The Importance of Successful Discharge Planning

Presented by: Sarah Taylor & Craig Padgett

# Introduction to Columbia River Mental Health

- Mission Statement:
  - Providing behavioral health and recovery services that transform the lives of children, adults, and families in the communities of SW Washington.
  - Services:
    - Adult Outpatient Services
    - SUD Services for Young Adults & Adults
    - Children and Family Services
    - Residential Mental Health Treatment
    - Crisis Stabilization Unit

#### Elahan Place

- Residential Mental Health Treatment & Crisis Stabilization
  - Therapeutic Environment
    - Comprehensive Curriculum
    - Implementation of Evidence Based Practices
  - Peer Support Services
    - Shared Experiences
    - Insight
  - Case Management Services
    - Teaching Independence
    - Aiding with Community Supports
    - Planning for Successful Discharge

### Planning for Successful Discharge

- Being a Case Manager has many hurdles, barriers and limitations that have to be navigated in order to ensure successful discharges for the population we serve.
- Examples of Barriers
  - Individual smokes
  - Low daily rate
  - Individual has pets
  - AFH Discrimination
  - Income Limitations, limits options for renting
  - Individual unwilling to accept anything besides Independent Housing

# Statistics Surrounding the Cycle of Homelessness

- According to The National Alliance to End Homelessness (2020):
  - Chronic homelessness is defined as; people who have experienced homelessness for at least one year or repeatedly, while struggling with a disabling condition. These conditions can be physical limitations, severe and persistent mental illness or substance use.
  - In January 2020, there were at least 110,528 homeless individuals with a history that qualifies under the definition for chronically homeless (NAEH, 2020).
  - Between the years of 2019 and 2020 this number increased by 15% (NAED, 2020).
  - It is extremely difficult for individuals to exit homelessness after the initial stint. This often leads to extended periods of time stuck in the cycle of homelessness.

### The Connection Between Mental Illness and Homelessness

- According to New Horizons Behavioral Health (2021), the relationship between mental illness and chronic homelessness is a two-way relationship.
  - Mental illness often times leads to cognitive and behavioral issues that hinder the individuals ability to gain and maintain employment.
  - It has also been shown that homelessness can exacerbate mental illness and substance abuse exponentially. This is largely due to the traumatic experiences that come with homelessness.
  - With the proper care options and attention, individuals experiencing mental illness and homelessness can finally break the cycle.

### Breaking the Cycle

- Resources are HUGE!!
  - As a Case Manager, I know that the more resources that I have at my disposal, the better I can serve my clients.
  - This means all-inclusive, wrap-around resources for individuals suffering from a variety of diagnoses.
  - Without the proper resources, we will continue to see the following
    - High utilization of ER and Crisis Stabilization Units
    - Revolving Door Syndrome
    - Continued Substance Use

#### **Resources for Success**

- In order to break the cycle, the right avenue and platform for resources needs to be created and distributed. Discharge resources are limited, have barriers present, and are scattered requiring increased time for coordination and implementation.
- How can the Discharge Planners Toolkit help us???
  - Allows for a more streamline resource search.
  - Less time spent looking for and connecting residents to limited resources.
  - More time available for discharge implementation/follow-ups.

# Governor Q&A

# CURRENT WORK AND FUTURE COMMITMENTS

PRESENTED BY MELODIE PAZOLT, HEALTH CARE AUTHORITY

# Housing is complicated

### Types of housing

- Own home
- Shared housing
- SRO
- Shelter
- Project based housing
- Cottages/Tiny Home
- Transitional Housing
- Master lease
- ADU
- Scattered site

#### Types of SH services

- FCS
- HARPS
- GOSH
- Shelter + Care

Housing subsidies
•HEN
•HARPS - FHARPS
•GOSH
•Section 8
•HOPWA
•811
•VASH
•CHG
•ESG
•HOME
•TBRA
<ul> <li>Deed Recording Fees</li> </ul>
•AREN
•City levy funding
•1/10 <sup>th</sup> of 1% - HB1406

#### Publicly-funded housing

- Project based
- Set asides
- Tax credit properties
- 811
- 202

#### Residential-type facilities

- ADFH
- ARCF
- ALF
- SOA
- Recovery Houses
- Step down facilities
- Grant per diem

# Why a discharge planner's toolkit?

- Use the limited resources in an efficient manner
- Increase coordination between discharge planners in state institutions, hospitals, and treatment facilities with local housing networks/programs with the goal of decreasing the number of people becoming chronically homeless

#### • Assist discharge planners to:

- Provide people choice, power, and control over their lives through information and resources
- Document an individual's homelessness and chronic homeless status to meet HUD requirements
- Warm handoff of individuals to homeless assistance programs/housing networks e.g. Coordinated entry Washington State Health Care Authorit

# 3-prong approach to the toolkit

#### Electronic decision tree

- Produce a paper version as a minimum viable product to test concept
- Convert to virtual toolkit as a more dynamic long-term solution
- Develop the content and training 'SUD IMD' and crisis stabilization providers
- Develop a resource list for individuals on choices,

options, and resources for distribution within facilities

Prepare, train, educate the housing and homeless

service providers to receive the referrals coming from discharge planners

Develop stronger relationships/warm handoffs

# Pilot Discharge Planners Toolkit

#### 5 Mental Health Crisis Stabilization facilities

- Wraparound services coupled with emergency vouchers
- Facilitated introductions with homeless assistance programs/housing networks
- SUD residential treatment facilities
  - Beginning Foundational Community Support Services prior to discharge

## Success measures

- Development of products for discharge planners, individuals, and community programs
- Number of events to train staff and community providers
- Surveys prior to and after training to measure awareness
- Survey discharge planners to identify toolkit usage (goal TBD for usage)
- Increased referrals to appropriate transition services and successful attainment of the service (e.g., Foundational Community Supports and Housing and Recovery Through Peer Services)
- # of hits to virtual decision tree

# **Project Milestones**

- Identify target population Complete
- Develop paper toolkit for indented population June 30, 2021
- Implement pilot for intended population including a web-based decision tree – September 30, 2021
- Analyze results of pilot March 31, 2022
- Determine if adjusting and further piloting is necessary or if ready to expand implementation – December 31, 2022

# Connecting Individuals to Housing Prior to Release

Presented by

- DANIELLE ARMBRUSTER, DEPARTMENT OF CORRECTIONS
- ANGIE SAUER, DEPARTMENT OF CORRECTIONS
- STEVE DALTON, DEPARTMENT OF CORRECTIONS

### Connecting Individuals to Housing Prior to Release

Public Performance Review Results Washington – Goal 4.1 Reduce Homelessness

April 2021

### Mission, Vision, and Values

#### DOC Mission To improve public safety by positively changing lives

#### DOC Vision Working together for safer communities

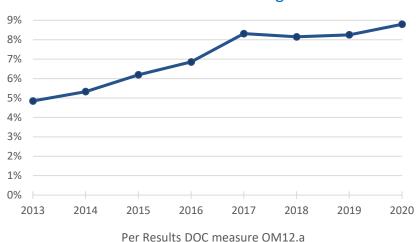

#### DOC Values

#### Cultivate an environment of integrity and trust Respectful and inclusive interactions People's safety Positivity in words and actions Supporting people's success

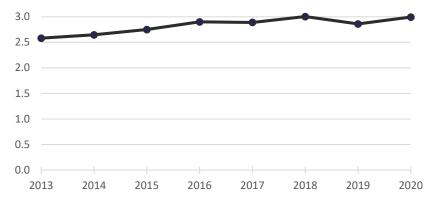

Danielle Armbruster, Assistant Secretary

### **Relevant Data**

#### Figure 1. Percent of Inmates Releasing Homeless

Per Dept of Commerce Point-In-Time count of homeless invidividuals vs. OFM WA population estimates

Danielle Armbruster, Assistant Secretary

## Current Work – Health Services Reentry

- Multiple programs with focus on reentry needs for those who have medical and behavioral health needs
  - **Offender Reentry Community Safety Program (ORCS)** for individuals identified with significant mental illness and risk to community or self (collaboration with Health Care Authority)
  - State Opioid Response (SOR) II Grant for individuals identified as having an Opioid Use Disorder
  - Department of Health (DOH)/King County Public Health for individuals living with HIV
  - **Completion of Medicaid applications** prior to release, as well as documentation and application for disability benefits
  - **Providing release medications** to bridge access to care in the community
  - **Social Work staff collaboration** with facility Case Managers and Reentry to identify potential housing options for individuals with behavioral health needs

## Challenges – Health Services Reentry

- Identification of housing resources
  - For those who do not fit into an existing program/funding source
- Connecting individuals with behavioral health in the community prior to release

## Current Work – Housing Program

#### Earned Release Date (ERD) Voucher Program

- 7 Regional Housing Specialists support each region statewide
  - Specialists assist Community Corrections Officers (CCO), Classification Counselors, and facility Social Workers in identifying appropriate housing for individuals
- Statewide Housing Directory/Housing Vendors
  - A list of housing providers by county who accept the DOC housing voucher
  - Specialists identify potential vendors and assist them in becoming part of the Statewide Housing Directory
  - Specialists assist the vendors in determining what populations they will serve
- Regional Housing Specialists complete a monthly review of individuals at or past their earned release date ERD
  - Identifies individuals at risk to release homeless

6

## Challenges – Housing Program

- Funding and housing resources for individuals who do not fit the voucher criteria
  - Including releases from jails, monetary releases to tolled causes, releases on max date
- Lack of housing vendors or vacancies
- Release planning process navigation
  - Completing applications to vendors
  - Due to behavior issues, voucher benefits may be denied or revoked
  - Transportation

#### Housing stability post release

- Voucher is for three months
- Tracking homelessness post release

7

## Toolkit will support DOC efforts by...

- Providing additional housing resources to Case Managers, Navigators, and Housing Specialists
  - For individuals who are releasing without voucher benefits
  - For individuals whose housing voucher benefits have expired
  - For individuals previously housed in the community who are now experiencing homelessness
- Providing an additional resource to staff working with individuals with behavioral health needs

8

### Thank You
