

ELIMINATING DATA WASTE

Master *Person* Index Project

PROBLEM

Dozens of programs use different technology solutions to identify and provide services to the same clients, with no centralized index to coordinate client information across programs or systems.

SOLUTION

- Master *Person* Index (Master Patient Index)
- Reduce data duplication
- Increase stability
- Increase data accuracy

WHAT HAPPENED

2020 and the COVID Pandemic
Washington Disease Reporting System
Case Risk Exposure Surveillance Tool

HOW IT WORKS

Systems can push and pull into an integration layer
Integration layer checks with Identity Service
Interfaces for deduplication, merging records, reporting

WHAT IS NEXT

DOH has identified 40 systems

Use at Health Benefits Exchange, Department of Children, Youth, and Families, Department of Social and Health Services, and Health Care Authority
