

# Washington Recovery Group

## Office of Financial Management

### Background

- The Washington Recovery Group is coordinating the state's COVID-19 pandemic recovery activities and setting priorities that strengthen the resiliency of our state and all Washingtonians. To learn more, visit the [Washington Recovery Group webpage](#).
- Governor Jay Inslee has asked us to keep moving this work forward by developing more specific strategies and activities around four recommendations.

### Recommendations

- Improving access to state services for all Washingtonians through the eyes of the customer
- Collaborating as an enterprise to implement the "[Blueprint for a Just & Equitable Future](#)," the 10-Year Plan to Dismantle Poverty
- Ensuring state technology is designed to support customer needs
- Creating an environment for employees and employers to thrive

### Next steps

There is a workgroup in place for each recommendation. The workgroups are meeting regularly to develop more specific strategies and activities for each recommendation.

### Principles

- Collaboration
- Equity
- Flexibility
- Centering the voice of community members
- Big connections and small wins
