

Cabinet and Governor Appointed Agencies' Performance Audit Action Item(s) & Status**Improving Staff Safety in Washington's Prisons**

(See also [cabinet agency response](#) for full context to Washington State Auditor's Office (SAO) [report](#), March 2016)

The Department of Corrections (DOC) was audited for this performance audit.

SAO Conclusion: The department's staff safety initiatives are innovative and unique.

SAO Issues Summary:

1. Staff feedback points to need to improve communication.
2. There are opportunities to improve implementation of staff safety initiatives.
3. Gaps exist between correctional leading practices and those used by the department.
4. The department needs more specific performance goals and measures to improve the effectiveness of its staff safety initiatives.

SAO Recommendations (Rec) Summary:

1. Address the issues with implementation of the staff safety initiatives the SAO's experts identified, including clarifying policies and procedures related to staff accountability, radios for non-custody staff, duress alarm testing, cameras, security specialists, place safety musters, and the local security advisory committees.
2. Address the gaps identified by our experts between the department's safety related policies, procedures and practices and correctional leading practices. Specifically:
 - a. Develop policies, procedures and practices to conduct staff searches
 - b. Evaluate and update the staffing model to ensure staffing levels are adequate and appropriately utilized to meet all the requirements placed on staff
 - c. Develop a more focused approach to monitor and audit the implementation of the staff safety initiatives to provide feedback on how well staff understand and are following relevant policies and procedures
 - d. Evaluate whether making further changes to department policies, procedures and practices to address additional identified gaps would be beneficial, including cell searches, issues with visibility, searching people entering facilities and access to facility control centers
3. Enhance approach to assessing the effectiveness of staff safety initiatives and implementation to provide additional opportunities for improvement. To do so:
 - a. Develop specific performance goals and measure progress toward meeting those goals.
 - b. Conduct periodic, anonymous staff surveys and focus groups to gather staff input on the effectiveness of the safety initiatives and whether they have improved how safe staff feel.
4. Improve staff communication about safety issues. To do so:
 - a. Provide additional guidance and training to facilitators to improve the effectiveness of the place safety musters, and local and statewide safety advisory committees.
 - b. Evaluate whether the benefit of re-establishing shift musters, which allow staff the opportunity to communicate about potential safety concerns before beginning their shift, outweigh the additional staff time and expense it would incur.
 - c. Provide more specific guidance for the role of security specialist to ensure good communication occurs on staff safety issues at the facilities, including ensuring staff receive feedback on the status of their staff safety suggestions.

The table below shows the current status of action items the agency initiated to address issues identified in the performance audit report. Please see the [cabinet agency response](#) for additional context and any additional steps already taken.

| Rec 1 | In progress | Conduct a focused review of policies pertaining to the specific security issues (staff accountability, *radios for non-custody staff, duress alarm testing, duties of security specialists, place safety musters and local security advisory committees in advance of regularly scheduled policy review periods, and clarify policy expectations as needed | DOC | 7/16 12/17 | *N = Radios for non-custody staff | *Y = Radios for non-custody | N | <ul style="list-style-type: none"> DOC 420.160 Staff Accountability is currently in review. A focus group was conducted to gather feedback and recommended changes.-Adoption of the updated policy delayed pending results of the Facility Access and Control Tracking (FACT) pilot, currently looking to expand this program to all facilities in Washington State dependent on funding and IT support. (7/19) This is still ongoing as DOC continues its research into the development/deployment of a statewide electronic accountability system. Review of duress alarm procedures completed June 13, 2017. Alarms work and testing has been incorporated into pre-scheduled drills. *Funds for radio purchases were requested in the 2017-19 and 2019-21 budget requests to OFM, but was not funded. This request will be resubmitted in the 20 2021-23 operating budget request. |
